♂ Male

PROFILE

Pursuing a Master's in Artificial Intelligence at Deggendorf Institute of Technology, with a background in Electronics and Communication Engineering. Equipped with fundamental technical skills and experience in business operations at Accenture. Reliable and fast learner.

EDUCATION

M.Eng. in Artificial Intelligence for Smart Sensors and Actuators, Technische Hochschule Deggendorf	03/2026 – Present cham, Germany
Bachelor Of Engineering in Electronics & Communication Engineering, Maturi Venkata Subba Rao Engineering College	2020 – 2024 Hyderabad, India
State Board Of Intermediate Education, Narayana Junior College	2018 – 2020 Hyderabad, India
State Board Of Secondary Education, All Saint's High School	2007 – 2018 Hyderabad, India

SKILLS

Highly Adaptable Learner, Soft Skills, Organizing Skills, Problem-Solving Skills, Programming Language – C language | SQL | Python

PROFESSIONAL EXPERIENCE

Trust & Safety New Associate, Accenture  Actively reviewing and classifying user-generated content on Google Maps. ▪ Demonstrating thorough understanding of Google policies and guidelines, applying them consistently to content moderation decisions. ▪ Investigating suspicious patterns such as charge backs, fake accounts, or abuse of payment systems. ▪ Escalating complex cases to senior analysts, risk specialists, or policy teams. Tools: Buganizer, Fire bolt–Quality checks , IDD PAY, UBD (user dashboard), PayH (payment history), PayC (payment console), BillH (billing manager).	02/2025 – 02/2026 Hyderabad, India
---	---------------------------------------

PROJECTS

Design Of Improved Sliding Mode Controller For Electromechanical Actuator Flat-top Correction • Objective: Enhanced the performance of an EMA system in missile control by addressing flat-tops caused by nonlinearities in the conventional PID controller. • Approach: Developed a PID Sliding Mode Controller to compensate for static friction and reduce flat-top time, thereby minimizing oscillations in missile trajectory. • Tools Used: Designed and simulated the control system using MATLAB Simulink.	2023 – 2024
---	-------------

CERTIFICATIONS

Cyber Champion Recognition  , Accenture	2025
Autonomous Vehicle Workshop  , MVSR Engineering College	2022
Best NCC cadet Award, All Saint's High School	2017
